

A versatile, rugged and reliable teller system that makes transactions easy.

MODEL 660/880 REMOTE TELLER SYSTEM

Integrated Solutions is Comco's exclusive series of modular products that seamlessly integrate into a highly-productive backroom teller center.

RUGGED DURABILITY AND STAINLESS STEEL DESIGN MAKE CUSTOMER TRANSACTIONS EASY AND DEPENDABLE.

A true workhorse – the 660/880 provides a rugged transaction system for any facility with audio and video communication that is sharper and clearer than any earlier models. In addition, the 660/880 is very flexible in both 4" and 4.5" sizes to work with new units or existing units - seamlessly retrofit for any facility. Multiple teller terminals combined with a variety of arrangements for the customer unit make the 660/880 series the most versatile replacement system available.

- FLEXIBLE SYSTEMS AVAILABLE IN 4" (660) OR 4.5" (880) SIZES THAT CAN BE CONFIGURED WITH ANY OF FOUR DIFFERENT TELLER TERMINALS. CUSTOMER UNITS CAN PIPE TO THE RIGHT OR LEFT, UNDERGROUND OR OVERHEAD AND RETROFIT MODELS CAN REPLACE EXISTING UNITS WITHOUT SKEWING.
- SIMPLE CUSTOMER EASE-OF-USE WITH HORIZONTAL CARRIER PRESENTATION.
- ELEGANT DESIGN WITH STAINLESS STEEL STANDARD FOR CUSTOMER BODY ALONG WITH POWDER-COATED END PANELS AND BASE THAT PROVIDES ENVIRONMENTAL DURABILITY AND LONG-TERM PRODUCT BEAUTY.
- IN-FLIGHT REVERSAL ALLOWS TELLER TO RETURN CARRIERS SENT BY THE CUSTOMER WITHOUT DELIVERY (BOMB THREATS). TELLER CAN ALSO BRING CARRIERS BACK AFTER SENDING IF NECESSARY.
- CONVENIENT CALL AND SEND BUTTONS THAT ARE EASILY REACHED FROM MOST ALL VEHICLES.

*** Integrated audio and video communication systems available with all packages.**

INNOVATION AT WORK.

Model 660/880 Remote Teller System

Integration At Work...

For more than 40 years, ComCo has pioneered teller center design with innovative pneumatic products that automate delivery and streamline communication.

The Model 660 (4" tube size) and Model 880 (4.5" tube size) Remote Teller Systems provide a durable and easy-to-use transfer system that makes transactions easy and efficient. Plus, improved audio and video (optional) makes the communication between teller and customer clearer than ever before.

660/880 CUSTOMER UNIT

- **Most Flexible** - Systems are available in 4" (660) or 4.5" (880) sizes and can be configured with any of FOUR different teller terminals. Customer units can pipe to the right or left, underground or overhead and "R" (Retrofit) models can replace existing units without skewing.
- **Simple-to-use** - This system does not have a sequence that can be made inoperative. Carrier is presented horizontally to the customer and convenient call and send buttons eliminate customer confusion.
- **Elegant & Durable** - Stainless steel exterior, powder-coated end panels and base along with an attractive, slim-line design.
- **Teller Security** - Provides in-flight reversal to return carriers sent by customers (bomb threats).
- **State-of-the-art Audio** - Improved audio provides simultaneous two-way conversation and automatically controls feedback.
- **Automatic Night Lockup** - The outer door closes and locks when power is turned off at the teller unit.
- **Automatic Air Brake** - For carriers going to and from the customer unit.
- **Energy Savings** - 110 volt power requirement. Saves on installation costs.

GET THE MOST OUT OF IT WITH THE 521 TELLER UNIT

- The unique Dual-Side Teller Unit allows for increased teller efficiency and comfort since the carrier can be retrieved from nearly any angle.
- The Single Teller Units are designed to be mounted side-by-side with full access through the front cover for easy maintenance (if needed).
- Wall and ceiling suspended units require no counter space, and they are positioned at a comfortable carrier arrival height for tellers.
- It's easy to operate with a simple "CALL" and "SEND" button with soft delivery inside and out.

Model 521 Dual-Side Teller Units
