

THE MARCH NETWORKS ADVANTAGE FOR BANKS

The March Networks **Banking Solution** introduces a comprehensive and completely re-designed suite of products, specifically designed to meet the needs of financial institutions and credit unions of all sizes. March Networks has raised the bar when it comes to detecting fraud, improving branch operations, and protecting banks.

93% FASTER

We enable financial organizations to detect ATM fraud 93% faster than our competitors.

March Networks is the **#1 supplier of video surveillance solutions in the Americas. Here's why over 450 of the world's banks and credit unions have chosen our solutions to protect their assets and improve their operations...**

- **March Networks never leaves a customer behind.** Our products are backwards compatible and support a cost-effective migration strategy.
- We offer the **most powerful, reliable, feature-rich hybrid NVR** in the industry, with a variety of models to fit your camera requirements — from 32 channels to 4 channels (the 4-channel model fits easily into an ATM).
- Seamlessly **migrate from 100% analog to 100% IP** at your own pace.
- **There's no platform out there that has faster search and retrieve capabilities.** Identify and find incidents without even having to watch video, and review video from any recorder at any time (no need to download video to your PC first in order to watch it).
- **Real-time Enterprise Health Management** ensures you are up and running at all times (no "scheduled polling"). You'll be notified about system issues within seconds.
- **Most extensive video intelligence suite, with Searchlight™** for Banking, reduces fraud and improves operational efficiency.
- **Centralized Management** lets you manage thousands of recorders from a single desktop; no other NVR manufacturer can scale to our size when it comes to managing thousands of recorders from one location.
- Our unique **Central Data Integration** guarantees transaction data always resides behind secure firewalls in your corporate data center, in an environment compliant with your own data and network operating policies.
- **See noticeably sharper images** from your legacy analog cameras without impacting video storage resources.

The most powerful, comprehensive, measurable banking solution available.

Contact a March Networks certified provider in your region today to learn why more than 26,000 bank branches are secured with our advanced video monitoring solutions. www.marchnetworks.com
