

Parabit Systems Building Access keeps you in control of who you allow into your building.

Our systems prevent unauthorized entry to your building and helps keep your employees safe. Parabit systems are completely programmable and windows compatible; making it simple to add and remove users.

With features such as Proximity, Biometric and Iris recognition, you can be sure only authorized personnel are entering your property.

Parabit's Building Access can also keep track of when and where your employees exit and enter your building.

Contact us today to find out how we can help keep your building safe and secure.

## STANDARD FEATURES:

- Remote and Local Access via TCP/IP, RS-232, RS-485
- Temperature: 35-110j F operational Humidity: 0 Æ 85% RHNC
- 40 definable cardholder note fields & note field templates
- Two access points, expandable to 128 (max. via TCP/IP)
- 26 bit (Standard), 32 and 34 bit Wiegand format support

- User-defined cardholder note fields provide more information for system operators
- Card activation/deactivation by day/month/year
- System tree for monitoring and control
- Powered by standard 110V AC outlet
- Assign multiple cards to a cardholder
- 1,000 events, expandable to 100,000
- Play with audio files based on events
- Scheduling for dial up locations
- Batch card add and card delete
- 500 to 10,000 user systems
- Auxiliary relay options
- Complete Systems
- Real-time clock
- UL294 listed
- Event viewer
- Input points

## COMPUTER REQUIREMENTS:

- Operating Systems: Microsoft Windows XP Professional  
- Windows 2000 Professional
- Pentium II- 4000Mhz CPU, 256 megabytes of RAM, 2.1 gigabyte hard disk
- One parallel port (if Badging system purchased)
- 15" SVGA color monitor (1024 x 768, 256 color)
- Two serial communication ports

## OPTIONS:

- Iris Recognition
- Card Production
- Badging Systems
- Computer Hardware
- Thumbprint Biometrics
- Remote System Management
