Bill Pay

While online bill payments are convenient, much of its transactions are driven more by the upper and middle-class customers. A caveat is that the unbanked and the underbanked are not being serviced to this convenience. That particular demographic usually pays with cash or check and in most cases has to go directly to a service center to wait in line to pay a bill. This could pose problems such as delayed payments and higher staffing costs for customer service employees.

With the use of a [Bill Payment kiosk](#), all these issues are covered. Parabit kiosks can accept cash and checks, and credit cards to provide customer convenience. Kiosks can also be located not only in service centers to ease the heavy foot traffic, but also in remote locations.

Many industries benefit from this kiosk, including:

- Utility Companies
- Financial Institutions
- Retail
- Government Agencies

Parabit partners with software companies to provide a turn-key Bill Payment Solution. With the Bill Payment kiosk, your system can be integrated so that your customers can approach the kiosk with a user-friendly interface. Pay bills easily with a check, credit card, or cash. Kiosks can also accommodate different languages to service an array of demographics. In addition, kiosks can be integrated to include teleconferencing, which supports the needs of the clients.

Peripherals featured in the Bill Payment kiosk include:

- Insert / Swipe Card Reader
- Cash Acceptor
- Receipt Printer
- Document Scanner
- Biometrics
- Check Scanner/Image Capture
- Web camera
- Telephone Handset
- Coin Acceptor

Some of the benefits of a Bill Payment Kiosk are:

- Remote locations for kiosks for easier and convenient access to consumers
- Decreases reconciliation costs
- Lower cost per transaction than manned transactions
- Marketing edge to generate new business opportunities
- Effectively serve the typically underserved un-banked market
- Option for customer service offices
- Digital Signage for revenue opportunities

Ticketing

Everyone has experienced the pain of waiting for a long time in line at a concert or a movie theater to establish a one minute transaction. In many industries, self-service ticketing kiosks have eased this experience greatly and made it a breeze for areas with heavy foot-traffic. A recent U.S. consumer survey shows a 50 percent growth in the use of self-service technology in the past year, with 70 percent of respondents saying they expect businesses to offer more self-service options. Of the many reasons stated for using self-service, ease-of-use and less time standing in line are top priorities for consumers.

Industries that will benefit from a ticketing kiosk include:

- Entertainment • Transportation • Amusement Parks • Recreation

Ticketing Kiosks not only attracts more people to buy tickets in a non-traditional manner, but these kiosks also act as a marketing tool through branding and digital signage. Also they are user-friendly and straightforward, therefore users purchase tickets in a few seconds. Seating can be selected by looking at the overview of the arena or the stadium and which seats are best available. Most kiosk software give customers the ability to pay with credit card or even use a loyalty card for promotional deals. Tickets can be printed on the client's own card stock for branding purposes. It is a benefit for the company and their clientele with its convenience and money saving aspect.

Peripherals that could be featured at ticketing kiosk:

- Touch Screen
- Cash Acceptor
- Insert or Swipe Credit Card Reader
- Vandal Resistant Keyboard
- Receipt Printer
- Ticket Printer

The ability to integrate to your existing system and provide a turnkey solution for your company is what Parabit strives to do. The ticketing kiosk will provide many benefits and returns, including:

- Create convenience for customers who purchase tickets.
- Strong visual presence of client that can be placed anywhere in public.
- Kiosks located in public areas present opportunity for impulse buying.
- Generate an increase in visit frequency and ticket sales.
- Kiosks can provide opportunity for upselling tickets for other events.
