

ProCash 2100xe

Automated Teller Machine

Multifunction ATM for indoors

In addition to its basic functions of dispensing cash and displaying information, the ProCash 2100xe can be extended to meet the customer's specific requirements, for instance to:

- Load/unload GeldKarte electronic purses
- Print receipts or other documents on a full-graphics printer
- Issue tickets or coupons from versatile cassettes
- Print account statements or other information on paper up to 250 mm wide
- Support extended editing functions through an alphanumeric combination keyboard
- Deposit banknotes/valuable documents
- Process passbooks
- Process single checks or bundles of checks
- Read barcodes
- Output sound (loudspeaker/headset)

Features and highlights

- Frontload or rearload
- Standard PC with Pentium IV
- Dispenser for bundles of up to 60 notes
- LCD (12.1" or 15") with autoscaling function
- Ready-made frames for different installation variants
- EMV 2000-certified
- Optical indicators at all input/output modules
- Optional: custom color scheme, power-save function

■ The ProCash 2100xe features a variety of functions coupled with a design that meets demanding international ergonomic requirements. This system can be configured flexibly to meet customer-specific requirements optimally. This also applies to the varied installation options: free-standing or built-in, half through the wall, or fully integrated with a frame.

ProCash 2100xe

Automated Teller Machine

The "xe-generation" of Wincor Nixdorf's ProCash product family has been optimized in terms of technology while retaining its external appearance and overall functionality. The flexibility of these systems is unrivaled on the market when it comes to ideal configuration and availability.
